

## **Level A**

6th Grade, 2nd Quarter

### **Nature Journal Project**

This quarter, your job is to prepare a nature journal.

You will:

- Investigate the world around you
- Make observations
- Record observations
- Get to know more about the nature of Charleston

To do this you will be required to make **9** nature journal entries. This is 1 entry per week of school in the 2nd quarter.

#### **Requirements for each nature journal entry:**

- Investigate 1 new plant, animal, or fungus outdoors
- On a plain sheet of paper (no lines), write information about the place you are in, the time, the date and the weather.
- Draw a sketch of the organism you are exploring that week. Label as you see appropriate. Color it in. If appropriate take a rubbing of the organism, or paste it onto your journal entry page. Your journal should include plants, animals, and fungi.
- Write 1 paragraph of observations about the organism (5 sentences **AT LEAST**).

::::Your final product will have a cover. Decorate it with designs you found in nature.::::

**Nature Journal Checks will take place every Friday.**

**Due: January 5**
